

# ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE ER REGULATORY CONTACT RECORD

**Date/Time:** January 26, 2004/ 12:30PM

**Site Contact(s):** Mike Bemski, K-H RISS  
**Phone:** 303-966-4090

**Regulatory Contact:** David Kruchek  
**Phone:** 303-692-3328

**Agency:** CDPHE

**Purpose of Contact:** Permission to backfill excavations at the 700-7 Remediation Project

## **Discussion**

The cooling tower slabs (784, 785, and 786) and the cooling tower pump-house (783), all northeast of the 779 slab have been removed along with associated utilities and foundation structures to a depth of 4 feet below final grade. It is understood that the Project has concurrence from the State to proceed with backfill of the associated excavations. The Project understands the following conditions for the backfill:

- The remainder of the pipes that fed the cooling towers will need to be sealed closed by foaming; and
- Analytical results of water samples taken from the tanks at 783 may indicate the need for further remediation at 783.

**Contact Record Prepared By:** Mike Bemski
